

REMARKS

Introduction.

This amendment is responsive to a non final rejection May 17, 2006. Applicants thank the Examiner for allowing claims 1-5, 10-11, 13, 15, 17-21, 23, 25, and 28-29.

The Office Action

Claim 26 was the only claim rejected and that rejection was based upon 35 U.S.C. §112. The examiner objected to Fig. 2 for the lack of reference number 5. Corrected drawings are attached hereto.

The Section 112 Rejection Of Claim 26.

Claim 26 specified that the melted thermoplastic film is copolyester. The examiner said that such a thermoplastic film is not disclosed in the specification. Applicants respectfully call the Examiner's attention to the last line of page 4 of the specification where copolyester for the thermoplastic film is disclosed. *If the Examiner disagrees, please call applicants' attorney as he will cancel claim 26.* Also the dependency of claim 26 has been changed such the claim now depends from claim 25.

The IDS

A clean copy of the foreign patent document DE 19737565 to Rump together with its English abstract is being filed with a revised IDS that cites the art previously cited to the Patent Office on June 13, 2005. Applicants assume that is all that the Examiner wanted. Applicants further request that the Examiner consider the art in the attached IDS which is the same as the one filed in June 2005, except that (1) applicants have provided a clean copy of Rump *with an English abstract*, (2) note that upon review of private PAIR Applicant notes that the *all foreign materials submitted have English abstracts* which the Examiner can evaluate against the background that all of the art cited has come from "smart card" patent applications in the U.S. which belong to the inventors' assignee and (3) note the relationship of the various applications (as set forth below) as to how the art is relevant to the instant application.

Application No. 10/750,181
